### What's New In?

The QuarkXpress Viewer plug-in enables users to examine several aspects of the current QuarkXPress file. The viewer is divided into six tabs, and provides six main functions. The first tab is the Explorer mode, where users can preview the file being opened. This mode offers two options: preview and preview with the preview window size. The second tab is the Edit mode, where users can perform most of the operations available in the QuarkXpress environment. This includes page layout, print management, documents attributes, text styles, hyperlink destinations, view resolution and bookmarks. The third tab is the Style Tab, where users can see the current type of text style applied to a particular document. In addition, users can apply styles, access the styles palette and delete existing styles. The fourth tab is the Font Tab, where users can see the current type of font applied to a particular document. In addition, users can apply fonts, access the fonts palette and delete existing fonts. The fifth tab is the Bookmarks Tab, where users can mark the current pages or sections of a document as favorites. The sixth tab is the Zoom In and Zoom Out Tab, where users can zoom into and zoom out of the current document. It is also possible to display the attributes of the current document in the Explorer mode and the Edit mode. Default Programs for QuarkXpress Viewer The following is the default list of programs that Windows links with the QuarkXpress Viewer. Notes: The Microsoft Outlook options is available only in the Windows version. If you wish to use QuarkXpress Viewer to view QuarkXPress files that are in Microsoft Outlook (and are accessible by means of the "Open With" feature), you must first change the properties of the QuarkXPress Viewer Add-in. (This can be accomplished in the QuarkXPress control panel, by accessing the Options dialog box for the Add-in. Viewing QuarkXpress Files with QuarkXpress Viewer: Open a QuarkXpress file with the user interface you want, such as using the QuarkXPress from a document, choosing File > Open. If the file has been opened in the QuarkXPress from a document interface, the file opens as it normally would in the QuarkXPress environment. If the file has been opened in the QuarkXPress environment, you are presented with a preview window. Click the QuarkXPress Viewer Add-in. The Explorer window will open, where you can choose to display the preview window in Explorer mode or the Explorer window. The QuarkXpress Viewer: QuarkXpress Viewer adds the QuarkXpress Viewer Add-in to the Windows Explorer. When you select
